

PRACTICAL INVESTIGATION WORKSHOP: EXERCISE SHEET

Hands-On Case Resolution for Investigators & Public Prosecutors

Participant Instructions:

Using the visual license plate evidence provided and your digital copy of `traveler_rentals_data.xlsx`, analyze each factual scenario below. Use AI vision capabilities, data filtering, and cross-referencing to answer the **Investigative Objectives** for each case.

Practical Case Exercises

CASE 01: The Cross-Border Identity & Emblem Fraud

Focus: Computer Vision & National Emblem Recognition

Visual Evidence: `Plate-Les2.jpg`

Legal Focus: Forgery & Cross-Border Smuggling

Factual Narrative: Border control cameras in South Africa flag a rental SUV traveling toward Maseru. The plate displays registration `AH 495` with a blue triangular traditional hat icon and numbers `09 13`. The driver claims to be a domestic tourist.

? Investigative Objectives (What You Must Find):

- **Q1.1 (Origin Identification):** Which country issues license plates featuring this specific blue conical straw hat symbol?
- **Q1.2 (Suspect Attribution):** Which traveler in `traveler_rentals_data.xlsx` rented a vehicle in this country during mid-July 2026? State their Full Name, National ID, and exact stay dates.
- **Q1.3 (Financial Anomaly):** Does the suspect's payment card issuing country match their stated nationality, or does it align with the destination territory?

📝 PARTICIPANT FINDINGS & EVIDENTIARY NOTES:

CASE 02: Non-Standard Script OCR & Human Trafficking Tracking

Focus: Multilingual OCR & Historical Script Parsing

Visual Evidence: Plate-mya.jpg

Legal Focus: Transnational Organized Crime

Factual Narrative: Surveillance imagery seized during a joint international task force raid shows a rusted vehicle used to transport undocumented individuals. Standard Western ANPR systems failed to read the plate because it contains non-Latin Burmese characters.

? Investigative Objectives (What You Must Find):

- **Q2.1 (Script & Region Parsing):** Translate the non-Latin characters (ဃ / ၆၀၀၄). What country, city/region code, and numerical digits are depicted on this plate?
- **Q2.2 (Suspect Pool Identification):** How many individuals in `traveler_rentals_data.xlsx` traveled to this country between June and August 2026?
- **Q2.3 (Financial Entity Target):** Which specific traveler staying during late July (July 24–31) holds a credit card issued directly in this jurisdiction, establishing primary financial intent?

🔍 PARTICIPANT FINDINGS & EVIDENTIARY NOTES:

CASE 03: The Vintage Vehicle Evasion & Tax Fraud Scheme

Focus: Historical Artifact Classification & Fraud

Visual Evidence: Plate-unknown.avif

Legal Focus: Vehicle Theft & Tax Evasion

Factual Narrative: Traffic enforcement cameras capture a high-end vintage automobile displaying a rusted yellow plate reading 1947 PENNA AC586. The driver claims the vehicle is an unregistered farm transport not subject to state luxury tax.

? Investigative Objectives (What You Must Find):

- **Q3.1 (Jurisdiction & Year):** Identify the issuing US state, the registration year printed on the plate, and its expiration date.
- **Q3.2 (Traveler & Flight Correlation):** Which suspect in the dataset traveled to this state and rented a vehicle during the turn of June into July 2026? State their Flight ID and National ID.
- **Q3.3 (Legal Anomaly & Fraud Analysis):** Why is mounting this specific physical license plate onto a modern commercial rental vehicle a criminal offense?

🔍 PARTICIPANT FINDINGS & EVIDENTIARY NOTES:

Visual Evidence: [matricula-coche-mozam.jpg](#) & [Plate-Esu.jpg](#)

Legal Focus: **Syndicate Narcotics Trafficking**

Factual Narrative: A maritime container intercepted at a port contains intelligence linking transit through Southern Africa. License plate captures show light blue plates ending in **MC** with national coats of arms and scenic plates with beehive huts (**SD**).

? Investigative Objectives (What You Must Find):

- **Q4.1 (Dual Country Classification):** Identify the two sovereign nations corresponding to Plate 1 (light blue with national coat of arms and MC) and Plate 2 (scenic hills with beehive huts and SD).
- **Q4.2 (Co-Presence Analysis):** Identify the two suspects in the Excel dataset who rented vehicles in these respective countries with overlapping stay dates.
- **Q4.3 (Conspiracy Window):** What is the exact co-presence timeframe (dates and duration) during which both suspects were simultaneously active in adjacent jurisdictions?

 **PARTICIPANT FINDINGS & EVIDENTIARY NOTES:**
